

Press release

Linköping, Sweden, October 27, 2006

## Hospital in Düren, Germany, optimizes efficiency with digital imaging system from Sectra

**The Düren hospital has selected the IT and medical-technology company Sectra as its PACS (Picture Archiving and Communication System) provider. The implementation of Sectra PACS will contribute to efficient and safe processing and archiving of all digital images used in the hospital.**

A key factor for the digitization of the radiology department at the Düren hospital was the request for an optimized and efficient workflow for all clinicians. Sectra PACS will provide the hospital with a totally integrated solution allowing the radiologists and the clinicians to read images productively and securely without compromising diagnostic quality or patient integrity.

### About Sectra's medical operations

Sectra is one of the world's major diagnostic imaging system (PACS) providers. More than 850 hospitals worldwide use the system daily and more than 40 million radiology examinations are diagnosed in Sectra's system annually. Sectra's systems have been installed in North America, Scandinavia and most major countries in Europe and the Far East. In Scandinavia, Sectra is the market leader with more than 50% of all film-free installations.

### About the Sectra Group

Sectra successfully develops and sells cutting-edge products in the expansive niche segments of medical systems and secure communication systems. The company was founded in 1978 and has its roots in the Linköping Institute of Technology in Sweden. Today, Sectra has offices in eleven countries and operates through partners worldwide. Sales in the 2005/2006 fiscal year totaled SEK 564 million. Since 1999, Sectra shares have been listed on the Stockholm Stock Exchange.
