Linköping, Sweden, June 25, 2007

Sectra signs distribution agreement with Polish medical company

The IT and medical-technology company Sectra has signed a distribution agreement with the Polish company Edo Med Sp.z o.o., a provider of medical imaging products. Edo Med has an established customer base throughout the radiology and oncology market in Poland.

Through this partnership Edo Med becomes a distributor of Sectra's medical systems in Poland. Initially, the agreement involves Sectra PACS (system for processing and archiving of digital radiology images) but it may be extended to comprise more products in the future.

"Edo Med has a well-established position in Poland and is an excellent partner for the distribution of our products", says Torbjörn Kronander, President of Sectra Imtec AB. "With this partnership, we take an important step forward into the new Europe's healthcare market," he continues.

With a population of 40 million, Poland is a large healthcare market. Since the country joined the European Union in 2004, huge investments have been made in increasing healthcare efficiency. Digitizing the medical-imaging departments is an important step in coping with the ever increasing demands being imposed on the healthcare sector.

"We see rapidly growing demand for efficient medical imaging solutions in Poland", says Jaroslaw Borkulak, President of Edo Med. "Partnering with Sectra enables us to provide new and existing customers with a well-proven solution to increase their operational effectiveness."

About Edo Med

Founded in 1996, Edo Med is a distributor of such medical products as PET/CT scanners, cyclotrons, laser mammography and hospital information system.

About Sectra's medical operations

Sectra is one of the world's major diagnostic imaging system (PACS) providers. More than 900 hospitals worldwide use the system daily and more than 40 million radiology examinations are diagnosed in Sectra's system annually. In Scandinavia, Sectra is the market leader with more than 50% of all film-free installations. Sectra's systems have been installed in North America, Scandinavia and most major countries in Europe and the Far East.

About the Sectra Group

Sectra successfully develops and sells cutting-edge products in the expansive niche segments of medical systems and secure communication systems. The company was founded in 1978 and has its roots in the Linköping Institute of Technology in Sweden. Today, Sectra has offices in eleven countries and operates through partners worldwide. Sales in the 2006/2007 fiscal year totaled SEK 673 million. The Sectra share is quoted on the Nordic Exchange in Stockholm. For more information about Sectra visit <http://www.sectra.com>.
