Sectra highlights at AAOS 2010

Sectra to show latest advancements in pre-operative planning at the AAOS Conference

Shelton, CT – February 16, 2010 - the IT and medical-technology company Sectra, will be showing its market leading orthopaedic PACS and pre-operative planning solution at this year's American Academy of Orthopaedic Surgeons, to be held from March 10th – 12th in New Orleans.

Sectra has advanced its suite of pre-operative planning tools to include automated guides for shoulder implant and hip resurfacing surgery. In addition, Sectra continues to broaden the capabilities of the underlying image analysis for its knee surgery planning tools.

The Sectra pre-operative planning tools are precise and ensure consistent surgical planning outcomes. The addition of various guides and custom planning profiles, coupled with a tight orthopaedic PACS workflow, makes Sectra orthopaedic PACS very intuitive for the user.

Sectra has been a leader in orthopaedic PACS and pre-operative planning solutions for more than a decade. With a highly customized workflow and the ability to access patient images as needed from within or outside of the hospital or clinic, Sectra's orthopaedic PACS enables surgeons to deliver their brand of patient care in a fast, efficient and high quality manner. The technology also allows for precise pre-operative planning, leveraging a database of >50,000 digital templates from the leading global orthopaedic implant manufacturers.

Major orthopaedic care facilities around the world continue to leverage Sectra's orthopaedic PACS to deliver the efficiency and precision demanded by their orthopaedic practices.

Sectra's orthopaedic PACS offering will be showcased at the upcoming AAOS 2010 Annual Meeting in New Orleans, LA, March 10th – 12th. Visit us in Booth #350.

About Sectra's medical operations

Sectra develops and sells IT-systems and products for radiology, mammography and orthopaedics. More than 1,000 hospitals, clinics and imaging centers worldwide use the systems daily, together performing over 50 million radiology examinations annually. This makes Sectra one of the world-leading companies within systems for handling digital radiology images. In Scandinavia, Sectra is the market leader with more than 50% of all film-free installations. Sectra's systems have been installed in North America, Scandinavia and most major countries in Europe and the Far East. In North America, Sectra's direct sales, service and support operation delivers leading digital imaging and radiology

information systems to multiple market segments, including large hospitals, imaging centers, community hospitals and orthopaedic clinics.

About the Sectra Group

Sectra successfully develops and sells cutting-edge products in the expansive niche segments of medical systems and secure communication systems. The company was founded in 1978 and has its roots in Linköping University in Sweden. Today, Sectra has offices in twelve countries and operates through partners worldwide. Sales in the 2008/2009 fiscal year totaled SEK 863 million. The Sectra share is quoted on the NASDAQ OMX Stockholm AB exchange. For more information, visit www.sectra.com.
