Full conversion, will result in the key ratio equity per share and earnings per share for the fiscal year 2010/2011 are affected only insignificantly. These key ratios have therefore been excluded.

The proposal, which has the same scope as the convertible program decided during the preceding eleven years, has been drawn up by the management in consultation with external advisers according to guidelines from the Board of Directors and has been discussed at a meeting of the Board of Directors during spring 2011.

The purpose of the deviation of the shareholders' preferential rights is to further strengthen the motivation of the employees regarding the Group's long-term business and financial development and to increase the motivation and the feeling of belonging to the company. According to Chapter 16 of the Swedish Companies Act referring to directed placements in stock market companies, etc., a resolution regarding approval of the plan as set out above shall be supported by shareholders representing at least 90 percent of the shares and votes represented at the General Meeting.

Please refer to the company's Annual Report 2010/2011, note 2, for a compilation of the company's incentive programs.

7. The convertibles entitle the holder to convert to Class B shares. The conversion rate shall correspond to 144 percent of the volume-weighted average of price paid for the company's shares on the NASDAQ OMX Stockholm during the period 2 - 17 August 2011. Holders are

entitled to request conversion of their convertibles into shares, during the period 23 - 27 May 2016.

8. Assuming full subscription and full conversion of the convertibles, the share capital may increase by no more than SEK 87,500.
9. No excess subscription shall take place.
10. The new shares shall yield a right to dividend from the first record day for dividend that occurs after the conversion has taken place.

In addition hereto, the terms and conditions according to **Appendix E** shall apply.

Moreover, it is proposed to authorize the Board of Directors, or any person nominated by the Board of Directors, to undertake such minor adjustments as may be required for the registration of the issue by the Swedish Companies Registration Office and Euroclear Sweden AB.

The issue price of the convertibles shall correspond to market value according to established principles of valuation. The convertibles have been valued by Grant Thornton.

The convertibles may only be allocated so that the dilution effect assuming full conversion amounts to no more than one (1) per cent of the share capital at the date of the Annual General Meetings resolution, wherein the dilution due to the allocation of convertibles to employees according to the proposal by the Board of Directors shall be included.

Full conversion, will result in the key ratio equity per share and earnings per share for the fiscal year 2010/2011 are only insignificantly affected. These key ratios have therefore been excluded.

The purpose of the deviation of the shareholders' preferential rights is to further strengthen the motivation of the external members of the Board of Directors regarding the Group's long term business development.

The proposal set forth above implies that the company's external Board members subscribe convertibles entitling the holder to acquire shares in the company. According to Chapter 16 of the Companies Act referring to directed placements in stock market companies etc., a resolution regarding approval of the plan as set out above shall be supported by shareholders representing at least ninety (90) percent of the shares and votes represented at the General Meeting.

Please refer to the company's Annual Report 2010/2011, note 2, for a compilation of the company's incentive programs.

Resolution regarding the grant of further stock options to employees in North America in accordance with the company's Global Share Option Plan and resolution regarding authorization for the Board of Directors to issue warrants (item 18)

The Board of Directors proposes that the AGM approves grant of up to 100,000 additional call options to the Group's employees in North America according the previously adopted Global Share Option Plan, whereby the Managing Director may be granted up to 40,000 options and other employees up to 10,000 options each.

According to the Global Share Option Plan, call options ("stock options") may be issued by the company or any of its subsidiaries and each of the stock options shall entitle the holder to acquire one Class B share in Sectra AB (publ). No premium is payable on allotment of a stock option. The exercise price for the stock options shall substantially correspond to 135 percent of the volume-

weighted average of the price paid for the company's shares on the NASDAQ OMX Stockholm at time of allotment.

The stock options may be exercised after three years from the date of allotment and under the condition that the employee is still employed within the Group. The stock options shall lapse three years and two months from the date of allotment.

The incentive program is carried out in order to further strengthen the employees' interest in the Group's long-term business and financial development and to increase the motivation and the feeling of belonging to Sectra AB (publ). The Board of Directors considers it to be advantageous for the company and for the company's shareholders to enable employees in North America to be shareholders in Sectra AB (publ).

If all stock options are exercised, employees in the Group will acquire shares corresponding to approximately 0.3 percent of the share capital and approximately 0.2 percent of the votes of the company. Considering previously granted stock options, the aggregate dilution effect corresponds to approximately 0.8 percent of the share capital and approximately 0.5 percent of the votes in the company. It has been considered that the dilution by the Global Share Option Plan for 2008 is expected to be zero.

The proposal, which is of the same scope as the option program approved in the preceding year, has been drawn up by the management in consultation with external advisers according to guidelines from the Board of Directors and has been discussed at a meeting of the Board of Directors during spring 2011.

Moreover, the Board of Directors proposes that the AGM resolves to authorize the Board of Directors to issue not more than 100,000 warrants, which shall entitle to subscription of not more than 100,000 Class B shares in the company at one or several occasions during the period until the next AGM. With waiver of the shareholders' preferential rights, wholly owned subsidiaries in the Group shall be entitled to subscribe for the warrants.

The purpose of the waiving the shareholders' preferential rights is to hedge the option undertakings according to the incentive program described above.

Full exercise of all 100,000 warrants in accordance with the authorization now being proposed has only an insignificant effect on the key ratios earnings and equity per share for the fiscal year 2010/2011. These key ratios have therefore been excluded.

The proposal set forth above implies that the employees within the group are granted call options entitling the holder to acquire shares in the company. According to Chapter 16 of the Swedish Companies Act referring to directed placements in stock market companies, etc., a resolution regarding approval of the plan as set forth above shall be supported by shareholders representing at least 90 percent of the shares and votes represented at the General Meeting.

Please refer to the company's Annual Report 2010/2011, note 2 for a compilation of the company's incentive programs.

The Board of Directors' statement in accordance with Chapter 19, Section 22 of the Swedish Companies Act (2005:551)

The Board of Directors hereby presents the following statement in accordance with Chapter 19, Section 22 of the Swedish Companies Act (2005:551).

The Board of Directors' reasons for the proposed authorization to repurchase and transfer the Company's own shares being in accordance with the provisions of Chapter 17, Section 3, paragraph 2 and 3 of the Companies Act are as follows:

The Company's objects, scope, and risks

The Company's objects and scope of business are set out in the Articles of Association and the annual reports provided. The business conducted by the Company does not entail any risks in excess of those that exist or may be deemed to exist in the industry or those risks which are generally associated with operating a business.

The financial position of the Company and the Group

The financial position of the Company and the Group as at 30 April 2011 is stated in the latest annual report. The annual report also states which accounting principles are applied in the valuation of assets, allocations and liabilities.

The non-restricted equity in the parent company and the Group's retained profits amounted to SEK 195.1 million and SEK 254.7 million respectively at the end of the 2010/2011 financial year.

The annual report states that the debt/equity ratio is 61 percent. Authorization to purchase and transfer the Company's own shares does not endanger the completion of any necessary investments.

The company's financial position does not give rise to any other conclusion than that the Company can continue its business and that the Company can be expected to fulfil its obligations on both a short and long-term basis.

In the opinion of the Board of Directors, the amount of shareholders' equity as reported in the latest annual report is in reasonable proportion to the scope of the company's operations and the risks associated with conducting operations in consideration of the authorization to repurchase the company's own shares now proposed.

Justification for repurchase

With reference to the above and to what has otherwise come to the knowledge of the Board of Directors, the Board of Directors is of the opinion that after a comprehensive review of the financial position of the Company and of the Group it follows that the proposed authorization to repurchase and transfer the Company's own shares is justified according to the provisions of Chapter 17, Section 3, paragraph 2 and 3 of the Swedish Companies Act, i.e. with reference to the requirements that the objects of the business, its scope and risks place on the size of the Company's and Group's equity and the Company's and the Group's consolidating requirements, liquidity and financing needs in general.

Subsection B. If the Company effects a consolidation or a split of its shares, subsection A above shall apply. The date on which the consolidation or split is carried out shall in such case be considered to be on an equal footing with the record date of the bonus issue.

Subsection C. If the Company issues new shares – with preferential rights to its shareholders to subscribe for new shares for cash – an adjusted conversion price shall apply in accordance with the following if conversion is requested on such a date that rights to participate in the new issue do not accrue,

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price

- B = preceding conversion price
- C = the average share price
- D = the average share price increased by the theoretical value of the subscription right

The average price of the share is the average of the mean of the highest and lowest prices paid each trading day in transactions as recorded on the NASDAQ OMX Stockholm during the subscription period. In the absence of a quotation of paid price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the average share price.

The theoretical value of subscription rights is calculated in accordance with the following formula:

$$A = \frac{B * (C - D)}{E}$$

- A = the theoretical value of the subscription right
- B = maximum number of shares that can be issued according to the resolution approving the new issue
- C = average price of the share
- D = the price at which the shares are being issued
- E = number of shares outstanding prior to the resolution whereby new shares are issued

If the subscription right has a negative value, the theoretical value of the subscription rights shall be fixed at zero.

The Company has the right to wait with conversion until after the record date if it facilitates accomplishment of the issue.

The Company likewise has the right to give all holders the same preferential rights that according to the resolution belong to the shareholders. Notwithstanding conversion has not been carried out holders shall be considered owners of the number of shares that the holder would have received if conversion had been carried out to the conversion price at the date of the resolution to issue. The fact that the holder would have been able to receive a cash sum in accordance with above, shall not result in any right now in question. Adjustment of the conversion price shall not take place if the Company should decide to give the holders preferential right in accordance with these conditions.

Subsection D. If the Company effects an issue as referred to in Chapter 15 of the Swedish Companies Act – with preferential rights for the shareholders to subscribe for convertibles in return for cash payment - an adjusted conversion price shall apply in accordance with the

following if conversion is requested on such date that right to participate in the new issue do not accrue,

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the value of subscription rights

The average share price is calculated as stated in subsection C. above.

The value of the subscription right shall be considered to correspond to the average of the mean of the highest and the lowest prices paid for such rights each trading day in transactions as recorded on the NASDAQ OMX Stockholm during the subscription period. In the absence of a quotation of a paid price, the last bid price quoted shall be included in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the value of subscription rights.

The Company has the right to wait with carrying out conversion until after the record date for the issue if it facilitates accomplishment of the issue.

The Company likewise has the right to give all holders the same preferential rights that accrue to the shareholders according to the resolution. In this case every holder shall, notwithstanding conversion has not been carried out, be considered owner of the number of shares the holder would have received if conversion had been carried out at the existing conversion price at the time of the resolution to issue. The circumstance that the holder also could have been able to receive a cash sum in accordance with the above mentioned shall not result in any right now at hand. No adjustment of the conversion price shall take place if the Company should resolve to give the holders preferential rights in accordance with those conditions.

Subsection E. Should the Company, in cases other than those set forth in subsections A. through D. above, make an offer to its shareholders to acquire on a preferential basis securities or rights of any type from the Company in accordance with the principles stated in Chapter 13, § 1 of the Swedish Companies Act or decide to distribute, in accordance with the above mentioned principles, such securities or rights to shareholders without consideration, an adjusted conversion price according to below shall be applied in connection with conversions requested at any time such that the received do not carry rights to participate in the offer or distribution.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price

- B = preceding conversion price
- C = average share price
- D = average share price increased by the value of rights to participate in the offer or distribution

The average share price is calculated during the specified subscription period in the offer as stated in subsection C. above.

In the event that shareholders receive purchase rights and trading of such rights has occurred, the value of the right to participate in the offer shall be considered to correspond to the average of the mean of the highest and lowest prices paid for such rights each trading day in transactions as recorded on the NASDAQ OMX Stockholm during the subscription period. In the absence of a quotation of a paid price, the last price quoted shall be included in the transaction. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation of value of the purchase rights.

In the event that shareholders have not received purchase rights or if such trading in purchase rights as referred to in the preceding paragraph has not occurred, the adjustment of the conversion price shall be calculated by applying as far as possible the principles set forth in subsection E. herein. The following shall thereby apply.

If a listing occurs of the securities or rights offered to the shareholders, the value of the right to participate in the offer shall be considered to correspond to the average of the prices paid for such securities or rights on each trading day during 25 days from and including the first day for listing calculated as the mean of the highest and lowest paid prices recorded for transactions in these securities or rights on the NASDAQ OMX Stockholm, less any consideration that is paid for these in conjunction with the offer. In the absence of a quotation of price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the average price. When a recalculation of the conversion price is made according to this paragraph, the above mentioned 25 trading days shall be considered to correspond to the application period in the offer according to above.

Should listing not occur, the value of the right to participate in the offer shall be determined as far as possible on the change in the market price of the Company's shares that can be considered to have arisen as a consequence of the offer.

The Company has the right to wait with conversion until after the record date for the offer if it facilitates accomplishment of the offer.

The Company likewise has the right to give all holders the same preferential rights, as according to the resolution is granted to the shareholders. In this case every holder, notwithstanding a conversion has not been carried out, shall be considered owner of the number of shares the holder would have had received if the conversion had been carried out at the existing conversion price at the time of the resolution of the offer. The fact that the holder also could have been able to receive a cash sum according to the above shall not result in any right now at hand. If the Company should resolve to give the holders

preferential rights in accordance with those conditions, no adjustment of the conversion price shall be made.

Subsection F. If a cash dividend to shareholders is decided, such that the shareholders receive, combined with other dividends paid during the same fiscal year, a total dividend exceeding ten (10) percent of the average price of the share during a period of 25 trading days immediately preceding the day on which the Board of Directors announced its intention to propose that the General Meeting of the Shareholders should approve such dividend an adjusted conversion price shall be applied for conversions requested at such time that the shares received in such event do not carry rights to receive the such dividend. The adjustment shall be based on the extraordinary dividend, i.e. on such part of the total dividend that exceeds the above mentioned percentage of the average price of the shares during the mentioned period. The adjustment shall be made according to the following.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the extraordinary dividend paid per share

The average price of the share shall be considered to correspond to the average of the mean of the highest and lowest prices paid each trading day during the above stated period of 25 trading days in accordance with the official price list of the NASDAQ OMX Stockholm. In the absence of a quotation of a paid price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation.

The Company has the right to wait with conversion until after the record date for the dividends if it facilitates accomplishment of the dividend.

Subsection G. If the Company's share capital is reduced through a repayment to its shareholders the following adjusted conversion price shall be applied.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the amount being repaid per share

The average share price is calculated under a period of 25 trading days from and including the day the share is listed without right to repayment as stated in subsection C.

The Company has the right to wait with conversion until after the resolution of repayment of share capital to shareholders has been registered at the Companies Registration Office, if it facilitates the accomplishment of the resolution of repayment of share capital.

Subsection H. Should the Company take action in accordance with the above and should the application of the conversion formula established for such action with reference to technical design of such action or for any other reason, not be possible, or would it result in the holders receiving, in relation to the shareholders, economic compensation that is not reasonable, the Board of Directors of the Company has the right to make adjustment of the conversion price as the Board of Directors determines appropriate to ensure that the adjustment of the conversion price leads to a reasonable result.

Subsection I. In adjusting the conversion price as described above, the price shall be rounded to units of 10 öre, with 5 öre rounded upwards.

Subsection J. If it is decided that the Company is to enter into liquidation pursuant to Chapter 25 of the Swedish Companies Act, conversion may not be requested thereafter, regardless of the grounds for liquidation; the right to request conversion ceases simultaneously with the decision to liquidate, notwithstanding the fact that the decision may not have come into legal force. However, the holder has the right, in such cases, to demand immediate payment of the principal amount of the convertible plus accrued interest to the date of payment. If the decision to liquidate is made at a General Meeting of Shareholders, this right becomes effective on the day following the Meeting or otherwise on the day following the date on which the court order or liquidation has come into legal force. Within a week thereafter, the Company, as provided below, shall notify the holders in writing, advising them of their right to immediate payment.

Not later than two months before the General Meeting of the Shareholders determines whether the Company should enter into voluntary liquidation, as provided in Chapter 25 of the Swedish Companies Act, the holders shall be informed, as provided below, of the planned liquidation. The notice shall include a reminder that conversion may not be requested after the Meeting has voted to liquidate.

If the Company gives notice of a planned liquidation as stated above, holders are notwithstanding the provisions above regarding the earliest time for requesting conversion – entitled to request conversion from the date when the notice was issued, provided that conversion can be effected not later than the tenth calendar day prior to the General Meeting of Shareholders at which the issue of the Company's liquidation is to be considered.

Subsection K. If the General Meeting of Shareholders shall approve a merger agreement, in accordance with Chapter 23, § 15, of the Swedish Companies Act whereby the Company would be absorbed by another Company, conversion may not thereafter be requested.

However, the holder has the right during a period of two months from the date of such approval to demand immediate payment of the principal amount of the convertible, plus interest.

The Company shall notify holders, advising them of this right, not later than one week following the beginning of such period. Nothing contained herein shall impair rights that may legally accrue to the holders in their capacity as holders in conjunction with a merger.

Not later than two months prior to the time the Company takes a final decision on the matter of a merger as described above, the holders shall be informed by notice of such merger plans. The notice shall present a report on the principal terms of the planned merger agreement and shall remind the holders that conversion may not be requested once the merger has been fully approved in accordance with that stated in the first paragraph above.

Should the Company give notice of the planned merger as stated above, the holders shall, notwithstanding the provisions regarding the earliest time for requesting conversion, have the right to request conversion from the date when the notice of the merger plans was issued, provided that conversion can be effected not later than the tenth calendar day prior to the General Meeting of Shareholders at which the merger agreement, whereby the Company shall become part of another company, is to be approved.

Subsection L. Should the Board of Directors, in accordance with Chapter 23, § 28 of the Swedish Companies Act, conclude a merger agreement whereby the Company shall be absorbed by the parent company, or the Company's shares become subject to compulsory acquisition pursuant to Chapter 22, § 1 of the same act, the following shall apply.

If a Swedish limited liability stock company owns all shares outstanding in the Company, and the Board of Directors announces its intention of concluding a merger agreement in accordance with the stipulations in the Act cited in the preceding paragraph, the Company shall in the event that the final day for conversion pursuant to above occurs after such announcement, determine a new closing day, i.e. a new final day for requests for conversion. The closing date shall fall within 60 days from the date of the announcement.

If a Swedish parent company owns, solely or together with its subsidiaries, more than ninety (90) percent of the votes for all the shares in the Company and the parent company announces its intention to require such compulsory acquisition, the provisions set forth in the preceding paragraph regarding the closing date shall be applied correspondingly.

However, holders have the right during a period of 60 days from the date of such announcement stated above in this subsection to demand immediate payment of the nominal amount of the convertibles, plus interest accrued to and including the date of payment.

If public notice has been given in accordance with what has been stated above in this Subsection, notwithstanding the provisions of § 6 above with respect to the earliest date to request conversion, the holders shall have the right to request conversion up to and including the closing date. At least four weeks prior to the closing date, the Company shall, by giving notice in accordance with below, notify holders of such right and that conversion may not be requested after the closing date. In addition, the holders shall be notified of their right to request immediate payment in accordance with that stated in the preceding paragraph.

Subsection M. Notwithstanding the provisions above to the effect that conversion may not be requested after a decision is made to liquidate, approval is given for a merger agreement of the expiration of a new closing date upon merger, rights to request conversion shall be reinstated in cases when the liquidation is revoked or the agreement to merge is not implemented.

Subsection N. In the event the Company goes into bankruptcy, conversion may not be requested from that point onwards. If, however, the bankruptcy decision is revoked by a higher court of law, conversion may again be requested.

Subsection O. If the General Meeting would approve a demerger agreement pursuant to Chapter 24 § 17 of the Swedish Companies Act, whereby the Company shall demerge a part of the Company's assets and liabilities acquired by one or several other limited liability companies for a consideration for the shareholders of the Company, a recalculated conversion is applied in accordance with the principles for extraordinary dividend in section G above. The recalculation shall be based on the part of the company's assets or liabilities which will be acquired by the transferor company.

If all the Company's assets and liabilities are acquired by one or several other limited liability companies for a consideration for the shareholders of the Company, the liquidation rules in section M above shall be applicable, meaning *inter alia* that the right to demand subscription expires at the same time as the registration pursuant to Chapter 24 § 27 of the Swedish Companies Act. The holder is therefore to be notified at the latest four weeks before the demerger plan is submitted to the General Meeting.

§ 9 Special undertaking by the Company

The Company agrees not to undertake any measure that would result in an adjustment of the conversion price to an amount less than the quota of each share in the Company.

§ 10 Statute of limitations

All rights to payment of principal shall cease ten years after the maturity date of the convertibles. The right to receive interest payments shall cease three years after the respective interest payment due date. Funds allocated for payments for which rights cease to exist accrue to the Company.

The reservations with respect to strikes, blockades, boycotts and lockouts apply even if Euroclear, the Bank or the Company itself undertakes, or is the object of, such actions. Neither Euroclear, the Bank nor the Company shall be obligated to provide compensation for loss arising in other situations if Euroclear, the Bank or the Company respectively has exercised normal prudence and are not in any case liable for indirect damages.

If a payment or any other action is stopped by circumstances such as those described in the first paragraph, such action may be deferred until the hindrance has ceased to exist. In the event of deferred payment, the Company shall pay interest at the interest rate applicable on the due date.

§ 14 Governing law, etc.

These terms and conditions and any legal matters relating to the convertibles shall be governed by Swedish law. Any legal proceedings relating to the convertibles shall be instituted in the District Court of Linköping (Sw: Linköpings tingsrätt).

In the event that the Company shall fail to make funds available to Euroclear in time for payment of the principal or interest due on the relevant due date for payment, whether or not there are hindrances in the liability of the bank or Euroclear as stated below, interest shall be payable on the past due date for payment, up to and including the banking day upon which, no later than 10:00 a.m., funds have been made available to Euroclear.

§ 6 Conversion

Holders shall have the right, during the period 23 – 27 May 2016, to request conversion of their convertibles into shares. If this amount is not evenly divisible by the conversion price, the surplus amount shall be paid in cash. The conversion price may be adjusted in the circumstances described below.

Conversion is effected by the new shares being registered in the Company's share register as interim. Any surplus cash amount as specified above shall thereafter be paid. After the registration has been made with the Swedish Companies Registration Office, the registration in the reconciliation account will become final.

§ 7 Interest and dividends in connection with conversion

Shares issued upon conversion carry rights to dividends commencing on the record date for dividends which falls immediately after the day on which conversion is effected.

§ 8 Adjustment of conversion price, etc.

The following shall apply with the respect to the rights of holders in the situations described below.

Subsection A. If the Company effects a bonus issue of shares conversion requested on such date that the thereby received share do not carry right to a bonus share, an adjusted conversion price shall be applicable in accordance with the following.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = number of shares prior the bonus issue
- D = number of shares following the bonus issue

The Company has the right to wait with conversion until after the record date for the issue if it facilitates accomplishment of the issue.

Subsection B. If the Company effects a consolidation or a split of its shares, subsection A above shall apply. The date on which the consolidation or split is carried out with Euroclear shall in such case be considered to be on an equal footing with the record date of the bonus issue.

Subsection C. If the Company issues new shares – with preferential rights to its shareholders to subscribe for new shares for cash – an adjusted conversion price shall apply in accordance with the following if conversion is requested on such a date that rights to participate in the new issue do not accrue,

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = the average share price
- D = the average share price increased by the theoretical value of the subscription right

The average price of the share is the average of the mean of the highest and lowest prices paid each trading day in transactions as recorded on the NASDAQ OMX Stockholm during the subscription period. In the absence of a quotation of paid price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the average share price.

The theoretical value of subscription rights is calculated in accordance with the following formula:

$$A = \frac{B * (C - D)}{E}$$

- A = the theoretical value of the subscription right
B = maximum number of shares that can be issued according to the resolution approving the new issue
C = average price of the share
D = the price at which the shares are being issued
E = number of shares outstanding prior to the resolution whereby new shares are issued

If the subscription right has a negative value, the theoretical value of the subscription rights shall be fixed at zero.

The Company has the right to wait with conversion until after the record date if it facilitates accomplishment of the issue.

The Company likewise has the right to give all holders the same preferential rights that according to the resolution belong to the shareholders. Notwithstanding conversion has not been carried out holders shall be considered owners of the number of shares that the holder would have received if conversion had been carried out to the conversion price at the date of the resolution to issue. The fact that the holder would have been able to receive a cash sum in accordance with above, shall not result in any right now in question. Adjustment of the conversion price shall not take place if the Company should decide to give the holders preferential right in accordance with these conditions.

Subsection D. If the Company effects an issue as referred to in Chapter 15 of the Swedish Companies Act – with preferential rights for the shareholders to subscribe for convertibles in return for cash payment - an adjusted conversion price shall apply in accordance with the following if conversion is requested on such a such date that right to participate in the new issue do not accrue,

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
B = preceding conversion price
C = average share price
D = average share price increased by the value of subscription rights

The average share price is calculated as stated in subsection C. above.

The value of the subscription right shall be considered to correspond to the average of the mean of the highest and the lowest prices paid for such rights each trading day in transactions as recorded on the NASDAQ OMX Stockholm during the subscription period. In the absence of a quotation of a paid price, the last bid price quoted shall be included in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the value of subscription rights.

The Company has the right to wait with carrying out conversion until after the record date for the issue if it facilitates accomplishment of the issue.

The Company likewise has the right to give all holders the same preferential rights that accrue to the shareholders according to the resolution. In this case every holder shall, notwithstanding conversion has not been carried out, be considered owner of the number of shares the holder would have received if conversion had been carried out at the existing conversion price at the time of the resolution to issue. The circumstance that the holder also could have been able to receive a cash sum in accordance with the above mentioned shall not result in any right now at hand. No adjustment of the conversion price shall take place if the Company should resolve to give the holders preferential rights in accordance with those conditions.

Subsection E. Should the Company, in cases other than those set forth in subsections A. through D. above, make an offer to its shareholders to acquire on a preferential basis securities or rights of any type from the Company in accordance with the principles stated in Chapter 13, § 1 of the Swedish Companies Act or decide to distribute, in accordance with the above mentioned principles, such securities or rights to shareholders without consideration, an adjusted conversion price according to below shall be applied in connection with conversions requested at any time such that the received do not carry rights to participate in the offer or distribution.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the value of rights to participate in the offer or distribution

The average share price is calculated during the specified subscription period in the offer as stated in subsection C. above.

In the event that shareholders receive purchase rights and trading of such rights has occurred, the value of the right to participate in the offer shall be considered to correspond to the average of the mean of the highest and lowest prices paid for such rights each trading day in transactions as recorded on the NASDAQ OMX Stockholm during the subscription period. In the absence of a quotation of a paid price, the last price quoted shall be included in the transaction. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation of value of the purchase rights.

In the event that shareholders have not received purchase rights or if such trading in purchase rights as referred to in the preceding paragraph has not occurred, the adjustment of the conversion price shall be calculated by applying as far as possible the principles set forth in subsection E. herein. The following shall thereby apply.

If a listing occurs of the securities or rights offered to the shareholders, the value of the right to participate in the offer shall be considered to correspond to the average of the prices paid for such securities or rights on each trading day during 25 days from and including the first day for listing calculated as the mean of the highest and lowest paid prices recorded for transactions in these securities or rights on the NASDAQ OMX Stockholm, less any consideration that is paid for these in conjunction with the offer. In the absence of a quotation of price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the average price. When a recalculation of the conversion price is made according to this paragraph, the above mentioned 25 trading days shall be considered to correspond to the application period in the offer according to above.

Should listing not occur, the value of the right to participate in the offer shall be determined as far as possible on the change in the market price of the Company's shares that can be considered to have arisen as a consequence of the offer.

The Company has the right to wait with conversion until after the record date for the offer if it facilitates accomplishment of the offer.

The Company likewise has the right to give all holders the same preferential rights, as according to the resolution is granted to the shareholders. In this case every holder, notwithstanding a conversion has not been carried out, shall be considered owner of the number of shares the holder would have had received if the conversion had been carried out at the existing conversion price at the time of the resolution of the offer. The fact that the holder also could have been able to receive a cash sum according to the above shall not result in any right now at hand. If the Company should resolve to give the holders preferential rights in accordance with those conditions, no adjustment of the conversion price shall be made.

Subsection F. If a cash dividend to shareholders is decided, such that the shareholders receive, combined with other dividends paid during the same fiscal year, a total dividend exceeding ten (10) percent of the average price of the share during a period of 25 trading days immediately preceding the day on which the Board of Directors announced its intention to propose that the General Meeting of the Shareholders should approve such dividend an adjusted conversion price shall be applied for conversions requested at such time that the shares received in such event do not carry rights to receive the such dividend. The adjustment shall be based on the extraordinary dividend, i.e. on such part of the total dividend that exceeds the above mentioned percentage of the average price of the shares during the mentioned period. The adjustment shall be made according to the following.

$$A = \frac{B * C}{D}$$

A = adjusted conversion price

B = preceding conversion price

- C = average share price
D = average share price increased by the extraordinary dividend paid per share

The average price of the share shall be considered to correspond to the average of the mean of the highest and lowest prices paid each trading day during the above stated period of 25 trading days in accordance with the official price list of the NASDAQ OMX Stockholm. In the absence of a quotation of a paid price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation.

The Company has the right to wait with conversion until after the record date for the dividends if it facilitates accomplishment of the dividend.

Subsection G. If the Company's share capital is reduced through a repayment to its shareholders the following adjusted conversion price shall be applied.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
B = preceding conversion price
C = average share price
D = average share price increased by the amount being repaid per share

The average share price is calculated under a period of 25 trading days from and including the day the share is listed without right to repayment as stated in subsection C.

The Company has the right to wait with conversion until after the resolution of repayment of share capital to shareholders has been registered at the Companies Registration Office, if it facilitates the accomplishment of the resolution of repayment of share capital.

Subsection H. Should the Company take action in accordance with the above and should the application of the conversion formula established for such action with reference to technical design of such action or for any other reason, not be possible, or would it result in the holders receiving, in relation to the shareholders, economic compensation that is not reasonable, the Board of Directors of the Company has the right to make adjustment of the conversion price as the Board of Directors determines appropriate to ensure that the adjustment of the conversion price leads to a reasonable result.

Subsection I. In adjusting the conversion price as described above, the price shall be rounded to units of 10 öre, with 5 öre rounded upwards.

Subsection J. If it is decided that the Company is to enter into liquidation pursuant to Chapter 25 of the Swedish Companies Act, conversion may not be requested thereafter, regardless of the grounds for liquidation; the right to request conversion ceases simultaneously with the decision to liquidate, notwithstanding the fact that the decision may not have come into legal force. However, the holder has the right, in such cases, to demand immediate payment of

the principal amount of the convertible plus accrued interest to the date of payment. If the decision to liquidate is made at a General Meeting of Shareholders, this right becomes effective on the day following the Meeting or otherwise on the day following the date on which the court order or liquidation has come into legal force. Within a week thereafter, the Company, as provided below, shall notify the holders in writing, advising them of their right to immediate payment.

Not later than two months before the General Meeting of the Shareholders determines whether the Company should enter into voluntary liquidation, as provided in Chapter 25 of the Swedish Companies Act, the holders shall be informed, as provided below, of the planned liquidation. The notice shall include a reminder that conversion may not be requested after the Meeting has voted to liquidate.

If the Company gives notice of a planned liquidation as stated above, holders notwithstanding the provisions above regarding the earliest time for requesting conversion – entitled to request conversion from the date when the notice was issued, provided that conversion can be effected not later than the tenth calendar day prior to the General Meeting of Shareholders at which the issue of the Company's liquidation is to be considered.

Subsection K. If the General Meeting of Shareholders shall approve a merger agreement, in accordance with Chapter 23, § 15, of the Swedish Companies Act whereby the Company would be absorbed by another Company, conversion may not thereafter be requested.

However, the holder has the right during a period of two months from the date of such approval to demand immediate payment of the principal amount of the convertible, plus interest.

The Company shall notify holders, advising them of this right, not later than one week following the beginning of such period. Nothing contained herein shall impair rights that may legally accrue to the holders in their capacity as holders in conjunction with a merger.

Not later than two months prior to the time the Company takes a final decision on the matter of a merger as described above, the holders shall be informed by notice of such merger plans. The notice shall present a report on the principal terms of the planned merger agreement and shall remind the holders that conversion may not be requested once the merger has been fully approved in accordance with that stated in the first paragraph above.

Should the Company give notice of the planned merger as stated above, the holders shall, notwithstanding the provisions regarding the earliest time for requesting conversion, have the right to request conversion from the date when the notice of the merger plans was issued, provided that conversion can be effected not later than the tenth calendar day prior to the General Meeting of Shareholders at which the merger agreement, whereby the Company shall become part of another company, is to be approved.

Subsection L. Should the Board of Directors, in accordance with Chapter 23, § 28 of the Swedish Companies Act, conclude a merger agreement whereby the Company shall be absorbed by the parent company, or the Company's shares become subject to compulsory acquisition pursuant to Chapter 22, § 1 of the same act, the following shall apply.

If a Swedish limited liability stock company owns all shares outstanding in the Company, and the Board of Directors announces its intention of concluding a merger agreement in accordance with the stipulations in the Act cited in the preceding paragraph, the Company

shall in the event that the final day for conversion pursuant to above occurs after such announcement, determine a new closing day, i.e. a new final day for requests for conversion. The closing date shall fall within 60 days from the date of the announcement.

If a Swedish parent company owns, solely or together with its subsidiaries, more than ninety (90) percent of the votes for all the shares in the Company and the parent company announces its intention to require such compulsory acquisition, the provisions set forth in the preceding paragraph regarding the closing date shall be applied correspondingly.

However, holders have the right during a period of 60 days from the date of such announcement stated above in this subsection to demand immediate payment of the nominal amount of the convertibles, plus interest accrued to and including the date of payment.

If public notice has been given in accordance with what has been stated above in this Subsection, notwithstanding the provisions of § 6 above with respect to the earliest date to request conversion, the holders shall have the right to request conversion up to and including the closing date. At least four weeks prior to the closing date, the Company shall, by giving notice in accordance with below, notify holders of such right and that conversion may not be requested after the closing date. In addition, the holders shall be notified of their right to request immediate payment in accordance with that stated in the preceding paragraph.

Subsection M. Notwithstanding the provisions above to the effect that conversion may not be requested after a decision is made to liquidate, approval is given for a merger agreement of the expiration of a new closing date upon merger, rights to request conversion shall be reinstated in cases when the liquidation is revoked or the agreement to merge is not implemented.

Subsection N. In the event the Company goes into bankruptcy, conversion may not be requested from that point onwards. If, however, the bankruptcy decision is revoked by a higher court of law, conversion may again be requested.

Subsection O. If the General Meeting would approve a demerger agreement pursuant to Chapter 24 § 17 of the Swedish Companies Act, whereby the Company shall demerge a part of the Company's assets and liabilities acquired by one or several other limited liability companies for a consideration for the shareholders of the Company, a recalculated conversion is applied in accordance with the principles for extraordinary dividend in section G above. The recalculation shall be based on the part of the company's assets or liabilities which will be acquired by the transferor company.

If all the Company's assets and liabilities are acquired by one or several other limited liability companies for a consideration for the shareholders of the Company, the liquidation rules in section M above shall be applicable, meaning *inter alia* that the right to demand subscription expires at the same time as the registration pursuant to Chapter 24 § 27 of the Swedish Companies Act. The holder is therefore to be notified at the latest four weeks before the demerger plan is submitted to the General Meeting.

§ 9 Special undertaking by the Company

The Company agrees not to undertake any measure that would result in an adjustment of the conversion price to an amount less than the quota of each share in the Company.

§ 10 Statute of limitations

All rights to payment of principal shall cease ten years after the maturity date of the convertibles. The right to receive interest payments shall cease three years after the respective interest payment due date. Funds allocated for payments for which rights cease to exist accrue to the Company.

§ 11 Notification

Notices concerning this loan shall be given to a holder, whose address is known to the Company.

§ 12 Confidentiality

Unless so authorized by the Company, the Bank or Euroclear may not provide information on holders to third parties. The Company has the right to obtain information on holders from the debt register kept by Euroclear.

§ 13 Limitation of liability

With respect to the actions incumbent on Euroclear, the Bank or the Company - Euroclear, the Bank or the Company shall not be deemed liable for loss due to Swedish or foreign legal decrees, Swedish or foreign action by public authorities, acts of war, strikes, blockades, boycotts, lockouts or other similar causes. The reservations with respect to strikes, blockades, boycotts and lockouts apply even if Euroclear, the Bank or the Company itself undertakes, or is the object of, such actions. Neither Euroclear, the Bank nor the Company shall be obligated to provide compensation for loss arising in other situations if Euroclear, the Bank or the Company respectively has exercised normal prudence and are not in any case liable for indirect damages.

If a payment or any other action is stopped by circumstances such as those described in the first paragraph, such action may be deferred until the hindrance has ceased to exist. In the event of deferred payment, the Company shall pay interest at the interest rate applicable on the due date.

§ 14 Governing law, etc.

These terms and conditions and any legal matters relating to the convertibles shall be governed by Swedish law. Any legal proceedings relating to the convertibles shall be instituted in the District Court of Linköping (Sw: Linköpings tingsrätt).
